ROGER / design Incanto lab

Simplicity and refinement may seem two opposite concepts, but in reality it is precisely from their union that a sophisticated lifestyle is born, in which every single detail, although it may seem spontaneous, comes from an deep study.

This is the case of this Roger model, a sofa with wide and linear shapes that are combined with details from automotive inspiration, metal and wooden elements that contribute to designing an authentic protagonist of the domestic space.

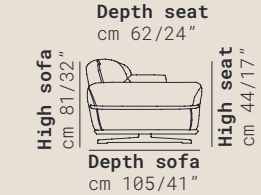

Simplicité et raffinement peuvent sembler deux concepts opposés, mais en réalité c'est précisément de leur union que naît un style de vie sophistiqué, dans lequel chaque détail, même s'il peut sembler spontané, provient d'une étude approfondie.

ROCKY / design Incanto lab

The highest level of thought, according to neuropsychology, is the reflexive one.

It contains conscience, reasoning but also the deepest emotions, those that are rooted in the personality and define it. In the case of Rocky, an attentive observer cannot escape its ability to fascinate the rational mind as well as to arouse sensations, memories, symbolic values: a work destined to create a lasting relationship with people and with space.

Le plus haut niveau de pensée, selon la neuropsychologie, est le niveau réflexif.

Il contient la conscience, le raisonnement mais aussi les émotions les plus profondes, celles qui s'enracinent dans la personnalité et la définissent. Dans le cas de Rocky, un observateur attentif ne peut échapper à sa capacité à fasciner l'esprit rationnel ainsi qu'à susciter des sensations, des souvenirs, des valeurs symboliques: une œuvre destinée à créer une relation durable avec les personnes et avec l'espace.

EMBLEMA / design Incanto lab

When extremes touch, they can give sensations that are both contrasting and coincident.

For example, the absolute rigor of a geometric shape reveals a soft and welcoming soul like a hug.

Emblema seems to arise from this concept: its volumes are square and rational, but its softness inspires an equally absolute comfort. All this with a compositional skill that recalls, in the basic inspiration, a Cubist work of art.

Lorsque les extrêmes se touchent, ils peuvent donner des sensations à la fois contrastées et coïncidentes.

Par exemple, la rigueur absolue d'une forme géométrique révèle une âme douce et accueillante comme une étreinte.

Emblema semble surgir de ce concept : ses volumes sont carrés et rationnels, mais sa douceur inspire un confort tout aussi absolu. Tout cela avec une habileté compositionnelle qui rappelle, dans l'inspiration de base, une œuvre d'art cubiste.

La géométrie d'Emblema est un concept de design qui vous permet de générer les variantes modulaires les plus diverses, créant un projet d'ameublement complet et polyvalent. Fauteuils, canapés et poufs se combinent avec une grande facilité, résolvant et optimisant les environnements de toutes tailles. privé

PRIVÈ / design Incanto lab

A thin line divides memory from actuality, the lightness of the soul from the depth of sensations.

It is the stylistic code that characterizes an absolutely original style, the inspiration from which Privé was born.

The feature that emerges at first glance is the presence of the raised stitching that emphasizes the contours, with a reference to the world of fashion that makes it even more fascinating: in every moment, in all seasons.

Une fine ligne sépare la mémoire de l'actualité, la légèreté de l'âme de la profondeur des sensations.

C'est le code stylistique qui caractérise un style absolument original, l'inspiration dont est né Privé.

La particularité qui ressort au premier coup d'œil est la présence de la surpiqûre en relief qui souligne les contours, avec une référence au monde de la mode qui la rend encore plus fascinante: à chaque instant, en toutes saisons.

PRIVÈ

Privè is proposed in the two-seater, two-and-a-half-seater, three-seater sofa versions, with high quality leather upholstery, also in a two-tone version: a variant with an irresistible vintage charm. Soft and comfortable thanks to the differentiated padding, it is characterized by the visible metal structure that gives it a pleasantly technical flavor.

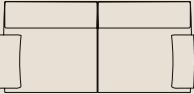

Privè est proposé dans les versions canapé deux places, deux places et demie, trois places, avec revêtement en cuir de haute qualité, également dans une version bicolore : une variante au charme vintage irrésistible. Doux et confortable grâce au rembourrage différencié, il se caractérise par la structure métallique apparente qui lui donne une saveur agréablement technique.

SURF / design Incanto lab

Classicism is a universal concept, it does not need translations to be highlighted in its sense of exemplary perfection.

However we must not think of this idea as something immutable in time: its nature is subject to different interpretations, through eras and places. Surf develops the forms of classicism, in the light of contemporary style and the new frontiers of ergonomics: this is how an original project was born which places the human at the center of the space.

Mais il ne faut pas penser cette idée comme quelque chose d'immuable dans le temps: sa nature est sujette à différentes interprétations, à travers les époques et les lieux. SURF

From the sofa to the chaise longue, all the elements of the Surf modular system are characterized by the cushions tufted into sections, which generate a sense of total comfort, already at sight as well as in contact with the body. A pleasant contrast to this sense of fullness is created by the thin lines of the armrests and backrest, together with the graceful and dynamic metal feet.

JOYCE / design Incanto lab

In the contrast between the subtlety and consistence of an idea, there is often an unexpected sense of harmony, an elegance capable of taking shapes that are both unexpected and familiar.

Surprising and welcoming at the same time, Joyce shuns clichés and finds space in environments, as well as in minds, richer in imagination, capable of exploring new stylistic frontiers, without giving up a sense of bourgeois well-being.

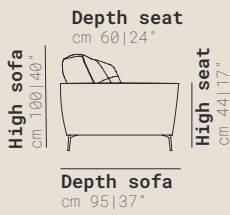

Dans le contraste entre la subtilité et l'épaisseur d'une idée, il y a souvent une harmonie inattendue, une élégance capable de prendre des formes à la fois inattendues et familières.

Surprenante et accueillante à la fois, Joyce fuit les clichés et trouve de la place dans les environnements, ainsi que dans les esprits, plus riches en imagination, capables d'explorer de nouvelles frontières stylistiques, sans renoncer à un sentiment de bien-être bourgeois.

JOYCE

Able to give shape to the most diverse compositions thanks to his modularity, Joyce is characterized by generous seats and soft cushions with feather padding, combined with thin armrests that determine his stylistic figure. The metal feet are also slender and tapered. The availability of the optional upholstery on the back of the backrest also makes it possible to set the sofa in the center of the room.

Capable de donner forme aux compositions les plus diverses grâce à sa modularité, Joyce se caractérise par des assises généreuses et des coussins moelleux au rembourrage en plumes, associés à des accoudoirs fins qui déterminent sa signature stylistique. Les pieds en métal sont également fins et fuselés. La disponibilité du rembourrage en option également à l'arrière du dossier permet de placer le canapé au centre de la pièce.

BRIGNAC / design Incanto lab

Between architecture and design there is a conceptual link that finds a common identity in the culture of the project.

Brignac represents an expression of this concept: a versatile and dynamic architecture, made of soft volumes and essential lines, which takes shape inside the house, creating a life scenario.

Meeting, conversing, sharing the sense of beauty and well-being are the activities that animate this space, like a theater of a domestic community.

Entre l'architecture et le design, il existe un lien conceptuel qui trouve une identité commune dans la culture du projet.

SOUL / design Incanto lab

There are those who prefer the pleasure of a profound culture of design to the seductions of the present, a vintage inspiration that comes from an iconic past, perpetuating its inimitable charm, in time and space.

With its mobement of empty and full spaces, Capitol speaks the language of 20th century architecture, the expression of a civilization of living in which tradition and research coexist: as different yet intimately complementary elements.

Le plus haut niveau de pensée, selon la neuropsychologie, est le niveau réflexif.

Il contient la conscience, le raisonnement mais aussi les émotions les plus profondes, celles qui s'enracinent dans la personnalité et la définissent.

Dans le cas de Rocky, un observateur attentif ne peut échapper à sa capacité à fasciner l'esprit rationnel ainsi qu'à susciter des sensations, des souvenirs, des valeurs symboliques: une œuvre destinée à créer une relation durable avec les personnes et avec l'espace.

SOUL

From the armchair to the modular sofas, Soul allows you to create multiple furnishing solutions, always expressing a refined personality. Its generous shapes, made comfortable by the double density seat comfort, are covered with high quality leather and packaged with tailored care. The wooden bases with metal feet speak the unmistakable technical and aesthetic language of excellence.

Du fauteuil aux canapés modulables, Soul vous permet de créer de multiples solutions d'ameublement, exprimant toujours une personnalité raffinée. Ses formes généreuses, rendues confortables par le rembourrage différencié, sont recouvertes de cuir de haute qualité et emballées avec un soin sur mesure. Les bases en bois avec pieds en métal parlent le langage technique et esthétique incompa-
rable de l'excellence.

In the most representative space of the house and the personality of its inhabitants, Opus represents a triumph of soft shapes and generous volumes, with an almost monumental presence that does not intimidate, but rather invites you to indulge in total well-being.

Le désir d'être protagoniste n'est jamais un excès, lorsqu'il s'agit de faire passer ses propres désirs et ceux des personnes que nous aimons en premier.

FUSION / design Incanto lab

There are forms that seem suspended in the space, yet at the same time communicate an idea of movement, a dynamic impulse that is perpetuated indefinitely.

This is the case of Fusion: to an expert glance in the world of design, its lines recall the world of cars and boating, while the soft and welcoming shapes induce a total abandonment of the body and mind: a prestigious protagonist in the panorama of living space. Fusion is a modular project in which modularity meets ergonomics, to create tailor-made solutions for every space and desire for well-being.

VENUS / design Incanto lab

When one thinks of seduction, there are many concepts that emerge in the mind: art, role play, indescribable magic that flows and envelops. It is not just about physical attraction, but rather a deep contact with the soul, as well as with the body.

Venus possesses these qualities and expresses them through its full and soft forms: a promise of well-being that does not die out in the moment, but lasts over time and helps to make life sweeter and more fascinating.

Quand on pense à la séduction, de nombreux concepts surgissent dans l'esprit: art, jeu de rôle, magie indescriptible qui coule et enveloppe. Il ne s'agit pas seulement d'attraction physique, mais plutôt d'un contact profond avec l'âme, ainsi qu'avec le corps.

Vénus possède ces qualités et les exprime à travers ses formes pleines et douces: une promesse de bien-être qui ne s'éteint pas dans l'instant, mais qui dure dans le temps et contribue à rendre la vie plus douce et plus fascinante.
